MS, CSP, CMC, CPCM  
Five Star Speaker

#### Target Audience:

**All employees!**

#### Program Overview:

The winds of change have been with us since the beginning of time, but never have changes been so rapid, far-reaching, and impactful as today. Tomorrow they will be even more so. One of the greatest challenges for companies today is to create a culture of not only accepting change but embracing it with confidence and courage. Doing so will require everyone mastering discreet change management skills, which will ensure survival of the enterprise.

#### Topics to be discussed include:

- \* Analyzing your feelings about change
- \* Implementing a 6-step process utilizing the principles and guidelines for transformation and organizational survival
- \* Soliciting ideas on how the change can be accomplished
